"1000% Sparking"

Theres a longing deep inside of my heart
so filled with passion yet it keeps us apart
thats the irony of how ive learned to love
Opportunities,
they come and they go
Uncertainties
can make it hard to know
we can take a chance
and choose to rise above
You give me strength
you shine in my affections
you light the darkness
thats in my life
though there are times that
I feel like giving up
I know theres reason
for living today
Our lives are sparking now
we're growing up
our hearts are getting strong
if we wanted to
we have a path
to change the world
Sparking now
search within
your soul to find the answer
push yourself to the edge
give 1000% percent
