Well you're leaving in the end  
There is nothing to pretend, but... sorrow... remains...  
Words escape me when I talk  
And my brain is going to walk... In circles... spinning  
around...  
I see the shadows on the wall  
In the candle light I see you... and me  
Hand in hand we walked the shore  
Bying earrings in a store... laughing... cheating  
Talking hours until dawn  
And your lips so endless warm... endless warm  
And the nights we danced away  
Whispering in my ear... ?My life's in your hand?  
And the nights we slipped away  
Staring at your tears... reflecting the end

You are the one  
You are my shining one  
You are my dream  
You are my shining  
You are my soul  
You are my better world  
You are my life  
You are my shining

We were lying on the floor  
With the feet we closed the door  
Like a prophecy we gained our hearts

We knew this dream tore us apart  
I thought there was another man  
That you surely had before  
All you said "the past is gone" and  
?Noone cries! ? and?Noone dies at all! ?
