### "Every Smile"

Visit "[Every Smile](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Every smile on every face, every hope  
Every street I walked on  
Every light, every pain,  
Every sky that starts to rain  
Like every face that I saw

Every mile that kept you away  
Every second of every day  
Every prayer with every night  
With our love we'll make it right  
Every dream, you're by my side

Every smile makes every note  
Every hope for you and me  
Every time love goes away,  
I will sing to make it stay  
Every smile makes every note  
Every hope will set me free  
Every smile, every smile

Every storm, every failure, every fear  
Every time you hold my hand  
Every sorrow, every doubt, every tear  
Gave me strength to carry on

Every time I lost my way  
Every time my strength would fade  
In every prayer with every night  
With our love we'll make it right  
Every dream, you're by my side

Every smile makes every note  
Every hope for you and me  
Every time love goes away,  
I will sing to make it stay  
Every smile makes every note  
Every hope will set me free  
Every smile, every smile
