I felt like a wave caressing my shoulders
He stood by the door, it all happened so fast
I froze and I stared
He said "Hands up, put your hands up"
A shot from nowhere
He said "Stand up, just stand up"
And I closed my eyes, let myself go
It took one second and I lost control

Mr Love just shot me down
He shot me once and kissed goodnight
It's all blurred
Mr Love just caught my body
I closed my eyes, prayed that he would stay forever

He brought me the moon on a silver platter
He fills up my room with joy and laughter
At sunrise he goes "wake up, wake up"
He chases clouds away and makes the sky brighter
When I open my eyes, fell him so close
Now he's here I won't let him go

Mr Love just shot me down
He shot me once and kissed goodnight
It's all blurred
Mr Love just caught my body
I closed my eyes, prayed that he would stay forever

The clock noise has stopped for a while
As I'm looking into his eyes
No word is strong enough to say, to say
I want him for eternity
He brings out the best in me
I pray, My Lord have him stay forever

Mr Love just shot me down
He shot me once and kissed goodnight
It's all blurred
Mr Love just caught my body
I closed my eyes, prayed that he would stay forever
