"Lost In Sleep"

You're trapped in your dreams
You'll never be free
Waiting for the end
Till the nightmare is done

Lost in sleep
Falling deep
You're lost in sleep
You've fallen too deep

You're tossing and turning
You're grasping at the air
You prey for the time that you'll wake
But you know it won't come

The nightmare
This nightmare
Your nightmare will never end
You sweat and you moan
And the cycle continues again

Lost in sleep
You continue to fall
Lost in sleep
You can't wake up
Lost in sleep
You've fallen too deep
