Welcome to another Jet roll order
Cooking so connection
And it's life to the next my nigga
Tell the niggas help me how to get down on my way

On my journey to the top they try to knock me off
I keep a bad bitch who tryin to top a nigga off
She told me that my voice keep a pussy moice,
So I kill it while I mean it I show no remorse,
Bumping on my trap house I'm yelling jack pie,
I brought a mack now I get I'm talking lip top
I'm running out the studio as usual
Another child born, another nigga funeral
Dead homies on my home I got em ted it,
The mama got that wet wet that double back shit,
I keep a smile on my face through all this madness,
Making money and weed my only habit
I keep it moving but I never moving backwards
Head mama addicts smelling like grand daddy
Kept dirty money am I let em in jacket
Now it's automatic I spit like an automatic
Like black

Hustle and... around here
You ain't the one I benz up beamer
Been broken ain't no joke around here
Nigga it's time to get the benz up beamer
The hoes only want to catch me do around here
They wanna ride and the benz a beamer
Them cock lights in my review near
'Cause I'm black and young in a benz a beamer

I don't cash kushed up you know how I do it
Making money off the music, damn nothing to it,
Nigga saving all my shine got this all the time
Mad 'cause I'm in the game and they shine line
Everybody get their chance and it's my time
On the grind like I got two nine to fives
Give my paper up early I'm alive and high
Formingo my lingo was one of a kind,
I'm real deal baby them lings for sights

247 I stay on my job,
No slackin on my pimping so sky is the limit
One one life to live so I gotta get it
Split that shit with my click and those who stay
committed
My real niggas words to my committee
I came with nothing so I ain't leavin with my pocket
empty
Is a dead world order coming to your city

Been broke ain't no choke around here
Niggas tryin to get the benz I'm a beamer
The hoes only want to catch me do around here
They wanna ride and the benz I'm a beamer
Them cock lights in my review near
'cause I'm black and young in a benz I'm a beamer

Been high in a benz of a beamer,
Yeah you know I'm fly in my benz of a beamer
Grind high in the benz of a beamer
