I look at you
You look at me
I feel like singing
You feel like rain
You're the one that's hurt
I feel the pain
You think about Tarzan
I think about Jane

You're 100 stories high
And I am 100 stories high
And we're 100 stories high
100 stories high

You talk and talk
But you don't say a thing
You stare at the mirror
I have the wedding rings
And the sun comes up
The moon disappears
And I don't like Tarzan
You don't look like Jane

And you're 100 stories high
And I am 100 stories high
And we're 100 stories high
100 stories high

I think it's gonna be a long, long night
I think I'm gonna stick around tonight, tonight, tonight

You're 100 stories high
And I am 100 stories high
And we're 100 stories high
A 100 stories high

100 stories high
