I wanna hear everybody in my ghetto say !

Please don't leave Rio  
I wanna hear everybody in my ghetto say  
Please don't leave Rio  
But they trying so hard not to let me play  
Please don't leave Rio  
I wanna hear everybody in my ghetto say  
Oh don't you go oh no Rio  
Then I gotta let know how I feel !

Please don't leave Rio  
Cause I ain't nothing but a dude from the G-yo  
That's trying to play it cool on these dummies like the reapo  
This rap game is mines let me show you how a G-flow  
Chi town brothers show love for this  
But the others want us down from above the bliss  
But Imma drink Imma clown like a thug with crist  
While I'm chillen downtown trying to plug my grips they say  
(Please don't leave Rio)  
Cause they know I represent this game  
So when it all comes to life I resent the fame  
And all the dollars and the price and the cents that came  
I ain't nothing but a product trying to make it real  
But they make it so hard for me to take this deal  
(You gotta change your style) just to scrape my bills  
I think this game is foul but lets embrace my skill by saying

Please don't leave Rio  
I wanna hear everybody in my ghetto say  
Please don't leave Rio  
But they trying so hard not to let me play  
Please don't leave Rio  
I wanna hear everybody in my ghetto say  
Oh don't you go oh no Rio  
Then I gotta let know what's the real

The good and the bad is the hood that we had  
But I came out good, so should I be sad ?  
Money don't makes a one to succeed  
Hey I come from the slums where I couldn't even read  
I couldn't even spell but you would have never tell  
I engraved myself from being dead or in jail  
And raised myself and took it straight to this level  
I forever will excel but I'll never leave this ghetto say'

Please don't leave Rio  
I wanna hear everybody in my ghetto say  
Please don't leave Rio  
But they trying so hard not to let me play  
Please don't leave Rio  
I wanna hear everybody in my ghetto say  
Oh don't you go oh no Rio  
Then I gotta let know how I feel !

The life that I haul was a hard one to catch  
I was treated like a dog but I played with the fetch  
And gave my all but felt proud when I gave it  
I'm having a ball but thanking god that I made it yeah  
This is the cause because they owed my block  
And I come a long way from when I sold the rocks  
from under the stars getting paid and you told the cops  
(Heeey)  
But look at what it made, you should have known my  
plot  
I gotta song that's hot and a whole fam to feed  
looking for a company of a jam in need  
And I ain't really gotta problem just a man indeed  
Hoping that the ghetto understand my plead  
I'll never let go another star is born  
from the ill's of the hood to an even harder storm  
And Imma preach to the kids  
Like a father form Rio may be the ghetto  
but he's far from norm now say

Please don't leave Rio  
I wanna hear everybody in my ghetto say  
Please don't leave Rio  
But they trying so hard not to let me play  
Please don't leave Rio  
I wanna hear everybody in my ghetto say  
Oh don't you go oh no Rio  
Then I gotta let know what's the deal!
