Chorus:

Never mind, I'll find someone like you
I wish nothing but the best for you too
Don't forget me, I beg
I remember you said,
Sometimes it lasts in love but sometimes it hurts
instead.

Only time I'm... hoping all this...
If you wanna take a chance, if you're watching take a
Second glance, a second glance,
Reflect on everything that you regret in one last text
Away from being sent
Off the... this game needs a reset
She's screaming... we're still young, so what we got to
lose except
When people that you knew become people that you
knew
Got a clue, know she doesn't, I'm loving this life style
But these grudges over nothing, showing everything I
wasn't
I get too much to just go and walk away
I'm thinking myself that's not even good for me to stay
Wait, holding on to something, should I let it go
If only got time... and we never know
I'll never know, but for now you're just a draw back
And I'm already over rich, just wanted you to know that!

Chorus:

Never mind, I'll find someone like you
I wish nothing but the best for you too

Don't forget me, I beg
I remember you said,
Sometimes it lasts in love but sometimes it hurts
instead.

Nothing compares, no worries...
Regrets and mistakes, the memory is made!
Just another memory made, one that will remember me
stay

Just another never read page, one that never finished
reading
Guilt, tripping, wishing that it was different
This was never a part of my plan, to be falling all this
hard as I can.
... write your name on the sand
We'll be chilling, still got my heart in the hand
She be killing, can't let go, this make me sad
Cause at the same time it was the only thing that was
making me live the moment
Showing the condolence, time I was... broken
Now it shows... I got a different girl holding on
No I'm gone, so remember the name
If you don't want to lose, the don't play the game,
Now say it!

Chorus: (x2)
Never mind, I'll find someone like you
I wish nothing but the best for you too
Don't forget me, I beg
I remember you said,
Sometimes it lasts in love but sometimes it hurts
instead.
