Cross the signs that fool your minds
Let your fear light the way
Danger games inside the claims
Fathers law to obey
One falls all fall death shines in your eye
Raise your hands and cry. yea.

Dragonfire proud and strong

Armored clad diseased and mad
From the canyons of hell
Climb the wall to desperate calls
Killers casting their spell
Save thee save thee save all if you can
Save your fatherland yea

Dragonfire, proud and strong yea

Raise your hands to the sky yea.

One falls all fall death
Shines in your eye.
Raise your hands and cry yea

Dragonfire, proud and strong yea.
Dragonfire, proud and strong
Look into the eyes the dragon....yea
