"Ghost Of My Mind"

When I fall on this sound
When I try to come and down
To come and down
When I'm ill, when I'm sick
When the ashes turn to real
Turn to real

There is no place for some love in my time
Said the ghost of my mind
There is no grace except the beauty we've had
Said the ghost of my mind

Don't be afraid by the shadow of the moon
Don't be afraid, it's just an empty room

When I'm ill, when I'm sick
When the ashes turn to real
Turn to real

There is no place for some love in my time
Said the ghost of my mind
There is no grace except the beauty we've had
Said the ghost of my mind

There is no place for some love in my time
Said the ghost of my mind
There is no grace except the beauty we've had
Said the ghost of my mind

Don't be afraid by the shadow of the moon
Don't be afraid, it's just an empty room

Hey hey hey hey hey, hey hey hey hey hey

With the ghost, with the ghost, with the ghost of my
mind
With the ghost, with the ghost, with the ghost of my
mind
With the ghost, with the ghost, with the ghost of my
mind

With the ghost, with the ghost, with the ghost of my
mind
With the ghost, with the ghost, with the ghost of my
mind
With the ghost, with the ghost, with the ghost of my
mind

With the ghost, with the ghost, with the ghost of my
mind
With the ghost, with the ghost, with the ghost of my
mind
With the ghost, with the ghost, with the ghost of my
mind

Hey hey hey hey hey, hey hey hey hey hey.
