Don't go  
I just want you to stay  
Yeah  
Don't go  
We're almost out of days  
Yeah  
Don't go  
Keep that look in your eyes  
Yeah  
Don't go  
Tonight could be the night  
Yeah

We'll never know whether (WHAT IT'S?) going to be  
So stay right next to me  
We'll never waste a night  
Make everything bright  
I'd never see the sunlight without you

Never know what you could've had  
But this isn't all that bad  
Doesn't get better than this  
I don't care what I'll miss  
I never could resist being with you

To have  
The time  
We'll waste  
To the life  
We'll live  
We'll love  
And die  
And that's just why

Don't go  
Just stay here with me  
Yeah  
Don't go  
There's so much more to see  
Yeah  
Don't go

What else can I do  
Yeah  
Don't go  
Just not life without you  
Yeah

It may be tough  
It may be hard  
We might not get that far  
Let's give it a shot  
And give it all that we got  
And never stop until we make it through

To have  
(Never know what you could've had)  
The time  
You waste  
(This isn't all that bad)  
You were right  
(Doesn't get better than this)  
You'll live  
(I don't care what I'll miss)  
And die  
(I never could resist being with you)  
And that's just fine

Don't go  
Just want you to stay  
Yeah  
Don't go  
We're almost out of days  
Yeah  
Don't go  
Keep that look in your eyes  
Yeah  
Don't go  
Don't go  
No  
Don't go  
No no no
