Rippingtons
"If I Owned The World"

If the midnight sky and the stars were mine,
From the rolling sea
To the mountains high
If I owned the world and if I could choose
I would give it all away,
Only to be with you.

Girl, my heart has found a home where it belongs
Your loving gives me strength to carry on
You're all I need
One touch from you my soul if free

If the midnight sky and the stars were mine,
From the rolling sea
To the mountains high
If I owned the world and if I could choose
I would give it all away,
Only to be with you.

Oh, Girl anywhere you are I want to be,
You opened up my eyes now I can see
A better place where I could see the smile upon your
face
And it only gets better with the passing of time
With you in my arms
I know that the world is mine, mine

If the midnight sky and the stars were mine,
From the rolling sea
To the mountains high
If I owned the world and if I could choose
I would give it all away,
If only you would stay,
I'd give it all away,
Only to be with you., Oh,
