i dont know why - want u
the way that i want u
and i dont know why - miss u
the way that i miss u
but when im in your arms
its makes me feel so good
and i dont know the reason why (*dont know the reason
why)
and i dont understand - why i feel the way i do
and i dont understand - what i feel when im with u
and any ww know it know in sworilen
until i found out what it is !!
could it be that when im with u
my fears all go away
and could it be that when im with u
its like a start on a brand new day
or is it just that when i hold u
i cant hold u enough
or could it be that im in love
somebody once told me
u have gotta trust your heart (*gotta trust your heart)
and this i have tried toooo do
right from the very start
and when im close to you
it makes me feel so good
and i dont know the reason why !!!
could it be that when im with u
my fears all go away
and could it be that when im with u
its like a start on a brand new day
or is it just that when i hold u
i cant hold u enough
or could it be that im in love
or could it be that im in love
or could it be that im in love
