God this must
Must be for certain
If you are here

Raise my world an ossuary
Staring through the gate wide-eyed
Did you think I'd salivate and beg
Don't sell me tones of liberation
Standing in a cage

May you find
That in this sinister lapse we'll heal our site
Save your tears my child
Take it, hold it, keep it, know
We choose this suffering

There they stand
Straining to scrutinize the sage
String me up these soap box augers
Seeking at the ways divined
Here from the citadel it's claimed
Serpents waiting in the shadows
Keep us from the dream

May you find
That in this sinister lapse we'll heal our site
Save your tears my child
Take it, hold it, keep it, know
We choose this suffering

I pushed the button
I pulled the trigger
I killed our brothers and murdered our sisters
I am the pattern
The plague and the prison
And I tore the wound and let it bleed

May you find
That in this sinister lapse we'll heal our site
Save your tears my child
Take it, hold it, keep it, know
We choose this suffering and we are not alone
