You are the light that shines
You are my inspiration
And you will always be
Forever my love
You are the only one I offer my invitation
And you will always be forever my love

Like the stars shining in the sky
These feelings I realize
Are forever my love

I am the rain that falls into your river flowing
Where we will always be forever my love
Down to the shore we'll flow
Into the sea of knowing
Where we will always be
Forever my love

Love, like the stars shining in the sky
These feelings I realize
Are forever my love
