I'm not yours
And you're not mine
Yet we want to share our time
Is this lovin' you lady
Lovin' you lady

You're my friend
And lover too
And yet we make each other
Oh so blue
Is this lovin' you lady
lovin' you lady

When I look at what we've known
The love we shared
And how we've grown
I feel fine
Having your love with me
But when the moment falls in place
And we find each other face to face
We just hide
Keeping it all inside
I wish that you and I could feel
like one
Living inside our love
Beeing in the moment
And sharing our life together
Oh, together

But I'm not right
And you're not wrong
And that's the way we get along
Is this lovin' you lady
Lovin' you lady
oh---

Lovin' you lady
When I look at what we've known
The love we shared
And how we've grown
I feel fine

Having your love with me
But when the moment falls in place
And we find each other face to face
We just hide
Keeping it all inside
I wish that you and I could feel
like one
Living inside our love
Beeing in the moment
And sharing our life together
Oh, together

It hurts my heart
To let you go
But I know I must
So we can grow
Is this lovin' you lady
Lovin' you lady
Lovin' you lady
Lovin' you lady.
