I'm gonna go to a higher power  
I'm gonna go straight to the Lord  
He comforts me in my waking hours  
Watch over me if You please, if You please

When I awake on Sunday morning  
I see the sun shine through the trees  
It causes me to be humble  
Watch over me if You please, if You please

Take me to that higher power  
And let the light shine over me  
All my years, all my sorrow  
Set me free if You please, if You please

All my life, You have followed  
Every step, every day in the arm of Your power  
Watch over me if You please, if You please

I'm gonna go to a higher power  
I'm gonna go straight to the Lord  
He comforts me in my waking hours  
Watch over me if You please, if You please

I'm gonna go to a higher power  
I'm gonna go straight to the Lord  
He comforts me in my waking hours  
Watch over me if You please, if You please
