Wanna crawl inside your guardian wall  
I don't like this space between us  
I don't think it's fair

Frustrating thoughts of losing you  
What can I do? I am the observer  
I'm not letting go

Whatever you say, I'll be right here by your side  
Whatever you do, we will figure it all out  
Whatever you do  
Na na na na na

What's on your mind? It can't be much  
What can you possibly be thinking?  
You haven't seen the world

I can feel you kick me every night  
Yes, you are strong, that is a good thing  
But still I feel afraid

Whatever you say, I'll be right here by your side  
Whatever you do, we will figure it all out  
Whatever you do  
Na na na na oh

Whatever you say, I'll be right here by your side  
Whatever you do, we will figure it all out  
Whatever you say  
Whatever you do, we will figure it all out  
Na na na na na
