i'm coming to carve my name into you  
i'm going to lap up the things that you spew  
i plot and plunder and scheme with delight  
i'm manifest seduction, such an insight

i want intercourse, can smell your cunt  
your bloody pink flesh is the bonus of the hunt  
smell of piss, pubic hair between my teeth  
sticky slut, a prick is what you needle  
(a prick is what you needle, between the teeth, a bonus,  
another hunt)

driller killer will seduce you tonight  
a driller thriller gecko sucking is alright  
driller killer will seduce you tonight  
a driller thriller stick poking is alright  
tonight tonight everything is all right

wasted and grounded i'm covered in shit  
no one ever said that this was fucking it  
seduce u tonight still covered in shit  
and i don't use shit as a metaphor  
wasted and grounded i'm covered in shit  
no one ever said that this was fucking it

seduce u tonight still covered in shit  
and i don't use shit as a fucking metaphor

a mug of coffee, blood, shit and sperm  
cover the bedsheets reveal the sacred worms  
today im dirty tomorrow i'll be dirt  
drinking and driving into love/shit absurd  
ejaculating horses malformed blowjob  
naked headless bodies (writhing till i throw up)  
just swallow the pill, numb the creepy lust  
a spastic conclusion as my crotch slowly rots  
(it slowly rots, a creepy dust, malformed, a bloody  
blowjob)

i am funky, i suck tonight, i'm funky tonight, i'm fucked

driller killer I will seduce you tonight  
a driller thriller gecko sucking is alright  
driller killer I will seduce you tonight  
a driller thriller eye gouging is alright  
tonight tonight everything is all right

wasted and grounded i'm covered in shit  
no one ever said that this was fucking it  
seduce u tonight still covered in shit  
and i don't use shit as a metaphor  
wasted and grounded i'm covered in shit  
no one ever said that this was fucking it  
seduce u tonight still covered in shit  
and i don't use shit as a fucking metaphor
