Crept on you like slowly  
But faster than you could see  
It's not like I noticed  
I would be the first one you let in  
Same person that you know would forget to be honest  
I might be the furthest from your mind  
Whatever you told me, somehow you sold me on  
I want to believe it 'til I see you later on

Apparition counterfeit  
Will this racket go on another year?  
Overconfident, maybe you're still here  
Misplaced my fear  
Whatever you told me, somehow you sold me on  
I want to believe it 'til I see you later on

You cross the other way  
And hope I didn't see you  
Start calling out your name  
Because I want to meet you again  
Don't ask, "Why?", you say, you're doing fine  
But that's not what it looks like  
Something doesn't feel right  
Your undercovers are on

Crept on you like slowly  
But faster than you could see  
It's not like I noticed  
Whatever you told me, somehow you sold me on  
Want had to believe it 'til I see you later on

You cross the other way  
And hope I didn't see you  
Start calling out your name  
Because I want to meet you again  
Don't ask, "Why?", you say, you're doing fine  
But that's not what it looks like  
Something doesn't feel right  
Your undercovers are on

You're acting kind of warm  
But soon you're got to leave

There's something that you need  
I'm not invited to go  
Those people that you know  
Well, they don't care about you  
Could live easily without you  
Your undercovers are on

Haa ahh ahh ahh  
Haa ahh ahh ahh  
Haa ahh ahh ahh  
Haa  
(Your undercovers are on)

You're acting kind of warm  
But soon you're got to leave  
There's something you need  
I'm not invited to go  
Those people that you know  
They don't care about you  
Could live easily without you  
You cross the other way  
And hope I didn't see you  
Start calling out your name  
Because I want to meet you again  
Don't ask

Haa ahh ahh ahh  
Haa ahh ahh ahh  
Haa ahh ahh ahh  
Haa  
(Your undercovers are on)  
Haa ahh ahh ahh  
Haa ahh ahh ahh  
Haa ahh ahh ahh  
Haa  
(Your undercovers are on)  
Haa ahh ahh ahh  
Haa ahh ahh ahh  
Haa ahh ahh ahh  
(Your undercovers are on)
