Gotta think think like a microchip  
Like it's thinking for me  
Let go, no crossed wires  
Moving clean mechanically  
Now I don; t get so anxious, nervous or depressed  
Cough cough virus cough  
You're better off  
Stay away from me

I got it  
From me  
I got it

Gotta sweep sweep sweep my drive  
For emotions that doesn't fit  
If it's sadness, Love or pride, I don't need it  
Why did you do this to me, look what I've become  
Cold, cold metal cold  
Stay away from me

I got it  
From me  
I got it  
From me  
I got it

Wake up sista, get away from me  
I'm not the guy I used to be  
French kiss and soon you'll see  
Robots may break your heart

Flesh is flawed and you it's true  
So many better things to do  
Then have a feeling caused by you  
Robots may break your heart

Binary code breaking  
Zerons and ones all I see now

File shut down selected  
Your program rejected

Delete interface  
Your function has no place

Wake up sista, whacha done to me  
I; m not the guy I used to be  
French kiss and soon you'll see  
Robots may break your heart

Flesh is flawed and you it's true  
So many better things to do  
Then have a feeling caused by you  
Robots may break your heart  
They break your heart
