Every time you smile,
I feel down deep inside
A fire that burns so deep.
And I just don't know why,
But you got me tongue tied,
Sometimes I can hardly speak.
For once this love is true,
I give my heart to you,
Baby, it's just me and you.

Chorus_
You and me boy,
You know this is true love.
Every day it's you I always think of.
Nothing can ever come between us,
I'll be by your side,
Baby for always.

Verse 2
Now, you feel the same.
You're with me every day.
You say the that you can't stay away.
Well, babe, I feel the same,
Can't even go a day,
Without seeing my babys face.
I need you like the air,
With you there's not a care.
Baby, you're the one for me.

Chorus
