Grab a black light and some girls
And forget about reality
The sun's going down
Like the cutie sitting next to me
Can't remember their names
And frankly I don't give a fuck
We're taking over, getting lifted
Raise up your cups

DJ let it explode
DJ let it explode
One night to make it right
DJ let it explode tonight

Now get your ass up on the dancefloor
Let it rock, let it rock
Tonight we're takin' over
And we're not gonna stop
So throw your hands up in the air
Let's do shuffle from midair
I'm 'bout to grow some blue wings
From XTC to air

DJ let it explode
DJ let it explode
One night to make it right
DJ let it explode tonight
