Waiting for you
To see what I see
You're on your knees
You look down on everybody
How's your view
Can you see me too
Do I look the same
Now that you are through

[Chorus]

There ain't no free rides
You got no alibi
You gotta work for it this time
I can't hold you up
It's just gonna slow me up
There's gotta be a better life
You're like a broken clock
Always the wrong time
You got a broken heart
It looks a lot like mine
How's your life
And how's your view
Does a smile get you
By like it used to

[Chorus]

And she said, I'll make it
It's my world after all

[Chorus]
