You're night alone
You're not as far as you might
Far from home
It still feels like a runaround
You're coming
You're going
You're coming
You're not sure
If you're coming
Or going
Just come in, just come in

[Chorus]

You're standing
On the edge again
You're waiting, waiting
And you're living
On the edge again
But you're standing, standing

You're not alone

With your new friends and
Far from home
Those boys are giving you the runaround
You're coming
You're going
You're coming
You're not sure
If you're coming
Or going
Just come in, just come in

[Chorus]

You're not taking what you have earned
And they're not giving you what you deserve
It's time you showed them what you're worth

[Chorus]
