"Slow Down"

Visit "[Slow Down](#)" on MotoLyrics.com

Well, I've been outta practice for awhile
See I forgot how to smile
But when you put your hand in mine
I start acting like a silly child
And I can't control my mind
Well, I've traced my shadow on the wall
See I forgot I'm this small
Because when your eyes look at mine
I feel like I'm a giant in your world
And I see what I'm worth
I want you to come closer
So time can pass a little slower
When you're with me, we live carelessly
And everything just slows down
Well, we've been sitting silent for awhile
Mapping our futures in the sky
Wondering where we'd fit in, way up high
But when you whisper in my ear
You bring me back to right now right here
I want you to come closer
So time can pass a little slower
When you're with me, we live carelessly
And everything just slows down
I want you to come closer
So time can pass a little slower
When you're with me, we live carelessly
And everything just slows down
