I imagine ballroom dancing 'neath your tight electric
shirt
There will be chairs there will be tables
there'll be spoons but there'll be no one else
I imagine ballroom dancing beneath your tight
synthetic skirt
Now tell me don't that sound romantic better than
love in the attic years ago
Don't tell me i'm crazy
I dreamt the sun was radiating blue
But doctors have cleared me
It's just a case of too much missing you
I imagine ballroom dancing 'neath your tight synthetic
shirt
There will be chairs there will be tables
there'll be spoons but baby no one else
I imagine ballroom dancing beneath your tight electric
skirt
Now honey don't that sound romantic better than
love in the attic years ago
I'd die for a maybe
But pardon me i'm not a desperate man
Just paranoid lately
You'll never know, they drop the bomb,
it's the end
