Dude
Dude
Dude
What?

Good news
Good news
Good news

What's so damn important
(Now we're finally landing)
That you feel that
(M1's started scanning)
It's necessary
To interrupt me
(For a possible source
Of the distress
Call we received)
In my pod

Now we're finally landing
Now we're finally landing
Get your stuff together
'Cause now we're finally
Going to land

(9x):
Good news
Good news
Good news

So who gives a damn?
