I wanna know  
What were you doing  
With my friend?  
Out in the eve  
Deep in the shady glen  
I saw you  
Lying with him  
Down in the snow  
Letting him do  
All of the things  
That he wants to

What does he do  
What does he do to you  
That's so nice?  
And how does it feel  
When he takes your hand  
And kisses it twice?  
Lying with you  
Down in the snow  
Letting him do  
All of the things  
That he wants to

(Come on, come on, come on I feel it)  
So, you laugh and play around  
(Come on, come on, come on I see it)  
You fall and hit the ground  
(Come on, come on, come on I feel it)  
You think I'll never know  
(Come on, come on, come on I see it)  
Your lover in the snow

Letting him fill you up with his whine  
Letting him flatter you with his line  
Letting him put you down on the snow  
Taking him in and letting me go  
(Come on, come on, come on)  
It hurts for me to see you so  
(Come on, come on, come on)  
And I can't take you back no more

(Come on, come on, come on)  
Lover in the snow

Come on, come on, come on I feel it

I wanna know  
What were you doing with my friend?  
Out in the eve  
Deep in the shady glen I saw you  
(Come on, come on, come on I feel it)  
You laugh and play around  
(Come on, come on, come on I see it)  
You fall and hit the ground  
(Come on, come on, come on I feel it)  
You think I'll never know  
(Come on, come on, come on I see it)  
Your lover in the snow

Letting him fill you up with his wine  
Letting him flatter you with his line  
Letting him put you down on the snow  
Taking him in and letting me go  
(Come on, come on, come on)  
It hurts for me to see you so  
(Come on, come on, come on)  
And I can't take you back no more  
(Come on, come on, come on)  
Lover in the snow

(Come on, come on, come on I feel it)  
You laugh and play around  
(Come on, come on, come on I see it)  
You fall and hit the ground  
(Come on, come on, come on I feel it)  
You think I'll never know  
(Come on, come on, come on I feel it)
