What's wrong with me?  
I'm kinda funny  
I'm not a dummy  
But I'm all alone  
Nobody sees me  
No one talks to me  
Unless they're laughing  
Laughing at me

Except for her  
She was my true friend  
Dancing with me  
She was my girlfriend  
Somebody, please, tell her for me  
Wanda, you're my only love

You're so lucky  
You're family's normal  
Mom drives a big rig  
My daddy's gay

No matter to her  
She was my true friend  
Dancing with me  
She was my girlfriend  
Somebody, please, tell her for me  
Wanda, you're my only love

Until the day I threw you away  
Now I'm alone, and I wish you were home
