I Used towish that i was

great as any man

better then i am

could do things no one can

and I used to wish that I was cool as I could be

but now I'm learning to live with me

chorus:

is anybody satisfied with who they really are?

you could be the moon and still be jealous of the stars

gotta learn to swim if you can't walk upon the sea

so I'm learning to live with me

and i used to wish that i was

braver then the rest

a hero nothin' less

a big duke in the west

but i know the way i am is who I'm gonna be

so I'm learning to live with me

chorus
