Well, i won't make you tell me
What I've come to understand
You're a certain kind of woman
I'm a different kind of man
I've tried to make you love me
You're tried to find a spark
Of the flame that burned but somehow turned to
Smoke rings in the dark
The loneliness within me
Takes a heavy toll
Cause it burns as slow as whiskey
Through an empty aching soul
And the night is like a dagger
Long and cold and sharp
As I sit here on the front steps
Blowin' smoke rings in the dark
(Chorus)
I know I must be going
Cause love's already gone
And all I'm taking with me are the pieces of my heart
And all I'll leave are smoke rings in the dark

The rain falls where it wants to

The wind blows where it will

Everything on earth goes somewhere

But I swear we're standin' still

So I'm not gonna wake you

I'll go easy on your heart

I'll just touch your face and drift away

Like smoke rings in the dark

(Repeat Chorus)
