I can't believe the times we spent  
Are gone today, are gone today  
I always thought I'd have the chance  
To say the words I never did

I wanna thank you more  
Than I can say, Than I can say  
Never met a better soul  
Or seen a bigger smile

I won't forget times  
Of Heinekens,  
And flying high  
Above those clouds

Where are you tonight my friend?  
I thought that you'd be here  
Where are you tonight my friend?  
I wish I could be there  
I'm afraid of the page that comes before the last  
(come on sing it back)  
I'm afraid of the day but I can't stay the night (come  
on bring it back)

I can't believe what comes our way  
I never thought, I never thought  
That you wouldn't be around  
to share with us the prize we win

I can't even say enough  
How much it means, how much it means  
That you gave it all up  
For everyone

Where are you tonight my friend, I thought that you'd  
be here
