# Riverside
## "Elder Tree"

Took a stroll by the trees, down the hill my father built,
Standing there since elder days x2
(Ho)
Hold me down before I fall,
Along the roots that grow down tall,
A little nook that I have seen,
You'll find me there that's where I'll be x2

Cause I have tried but I cannot be, help me grow down
deep,
Along the roots laying by the trees, help me grow now!

I have tried, but I cannot be, help me grow down deep,
Along the roots laying by the tree, help me grow now!

A little nook that I have seen,
You'll find me there that's where I'll be
A little nook that I have seen,
You'll find me there that's where I'll be
You'll find me there by the elder tree
