"Everywhere I Go"

Everywhere I go, everywhere I wake,
I'll be missing you, every step I take,
And I still feel your whisper on the wind,
And I still feel your heart in the mystic,
I could run, I could dance, I could sing,
But that wouldn't mean one thing,
Cause all I ever wanted was to make your day x2

I still wear your hair tie, hanging upon my wrist,
Cause all I ever wanted was to make your day x2

So everywhere I go, everywhere I wake,
I'll be missing you, every step I take,
And I still feel your whisper on the wind,
And I still feel your heart in the mystic.

Cause all I ever wanted was to make your day x3
