"When I Wake Up"

Visit "[When I Wake Up](#)" on MotoLyrics.com

Lonely days have been my horizons,
Ever since I fell for you my friend,
And at night it's hard to close my eyes
Ever since I fell for you my friend.
When I wake up, I'll be walking out the door
When the sun arise, I'll be wishing for you,
And the time when we will complete the days,
When I wake up I'll rise
And wish for you again

Woah x3

I've done some crazy things, but never like this
Ever since I fell for you my friend
The secrets out of me, I cannot resist,
Ever since I fell for you my friend

Yeah!

When I wake up, I'll be walking out the door
When the sun arise, I'll be wishing for you,
And the time when we will complete the days,
When I wake up I'll rise
And wish for you again

When I wake up, I'll be walking out the door
When the sun arises, I'll be wishing for you,
And the time when we will, complete the days,
When I wake up I'll rise
And wish for you again.

Woah x4
