I'm thinkin' 'bout a place  
I'm waitin' for the day  
When I will make my getaway  
Because as any fool can see  
There's nothin' here for me but  
Hurry up boy bring that water  
Don't do things you shouldn't oughta

But when I go away  
And find my easy street  
I'll have a smile for all I meet  
And they will welcome me I know  
Everywhere I go  
No more thinkin' that I've missed it  
How can anyone resist it  
And there's a chance  
That I will find my big romance  
When I get to my city home

But when I go away  
And find my easy street  
I'll have a smile for all I meet  
And they will welcome me I know  
Everywhere I go  
I'll see the town in all it's glitter  
Now could anyone be bitter  
And there's a chance  
That I will find my big romance  
When I get to my city home
