Let's talk it over, let's get it straight
Don't let the situation escalate
You know there's always problems when a man is
wrapped up in his art
But don't you worry baby you can count on me to do my
part

You keep on working, I'm looking round
Don't let you girlfriend put me down
You know it's tough these days for a proud man to
make a start
But don't you worry baby you can count on me to do my
part

You wash the dishes, I've gotta run
You know that night life ain't such fun
Now don't wait up for me 'cause I know you need your
rest, sweetheart
But don't you worry baby you can count on me to do my
part
