It didn't take much for me to uncover
What was going on inside
The look on your face was telling me a story
That you could not hide
I don't know what is bothering you
But let me tell you what my mama said
On days like this when you're calling it quits
Take my hand

Why don't we pray
Leave it there let it go
Don't worry no more
Why don't we pray
For the strength that it takes
To make it through the day
Why don't we fall
On our knees know that he will meet our needs
Why don't we pray

Everywhere you turn you will discover
That the world is getting twisted around
I know you're trippin cause you want to know
Is there an answer to be found
Right here right now let me tell you what I got to say
In times like this when you're calling it quits
Lets join our hands
Why don't we pray
Leave it there let it go
Don't worry no more
Why don't we pray
For the strength that it takes
To make it through the day
Why don't we fall
On our knees know that he will meet our needs
Why don't we pray

Pray pray

Why don't we pray
Why don't we pray
Why don't we pray
Why don't we pray

Tell me why don't we pray
Why don't we pray
Why don't we pray
Why don't we pray
Why don't we pray
Why don't we pray

Why don't we pray
Leave it there let it go
Don't worry no more
Why don't we pray
For the strength that it takes
To make it through the day
Why don't we fall
O n our knees know that he will meet our needs
Why don't we pray

Pray pray

Why don't we pray
