I always thought you were a friend,
You tried to burn me in the end.
That's when I realized,
Something was wrong.
We were only friends when you were bent.
Now... reality sets in.
Now... we're not friends.
'Cause you're in the hole, ?sloth?.
Hide from your fears,
The truth's getting near.
You're choked by a noose.
And this bottle really, really cut you loose.
Now you tell me that you quit,
That you really never needed it.
That's when I realized that you were full of lies.
Drunken Dr. Jekyll, and a Mr. Hyde.
Now... reality sets in.
Now... we're not friends.
'Cause you're in the hole, ?sloth?.
Hide from your fears,
The truth's getting near.
You're choked by a noose.
And this bottle really, really cut you loose.
Now... reality sets in!
Now... we're not friends.
'Cause you're in the hole, ?sloth?.
Hide from your fears,
The truth's getting near.
You're choked by a noose,
And the bottle really, really cut you loose.
