i never ..would made me stay so long  
i just seem all in my head  
can't beleive what seem so right .. wrong  
but i guess you learn as you leave  
i used to see some stranger in the mirror  
but all the time makes me ..  
i had to wake up, whipe my tears  
get up out fo here  
and now i'm so much better

Chorus:

thank you for breaking my heart again  
you hurt me so i knwo you know  
but i'm am stronger than before  
and i wanna thank you for making me ..  
i focused on me i knwo what i need  
even you was the best thing reset  
what happen to me

all you ever did was always knock me down  
it's like you're enjoying my pain  
deep inside i bet you thought you'd be around  
got a .. i see you much then a person iin the mirror  
finally what i see is so much clearer  
i had to wake up whipe my tears  
get up out fo here  
'cause now i'm so much better

[Chorus:]

i used to cry every night  
wonder why you do me like you do  
it gave you time .. and be ..  
then i was so over you

[Chorus:]
