I remember  
It was the coldest December  
I wasn't aware that she came to your life

I was feeling alone  
And you weren't there to keep me warm  
You were with her after we had had a fight

We gotta fight for this love  
No one can tear us apart  
I'm gonna give you my all  
And show my love even more

If this is meant to be  
we can win this  
Fight for love x3  
Show me how you feel  
we can win this  
Fight for love x3

"For better and for worse"  
Slowly became my curse  
I should have known that love comes with the heart ache

I didn't know your reasons why  
Why we were living a lie  
But we left all the secrets behind  
Cause

We gotta fight for this love  
No one can tear us apart  
I'm gonna give you my all  
And show my love even more

If this is meant to be  
we can win this

Fight for love x3

Show me how you feel  
we can win this  
Fight for love x3

If this is meant to be  
we can win this  
Fight for love x3

Show me how you feel  
we can win this  
Fight for love x3
