"Starstrings"

Visit "[Starstrings](#)" on MotoLyrics.com

It was meant to be what you wanted me to be
In front of every move that you always wanted to see

It was meant to be what you wanted me to be
In front of every move that you always wanted to see

But the music's fooling me
Compromise myself

Compromise myself

It was meant to be what you wanted me to be
In front of every move that you always wanted to see

Compromise myself

Never meant to dance the way you wanted to dance

Someone's willing to try, to try to take a chance

But the music's fooling me

I wanna hold you, I just wanna touch you
I wanna feel you, my arms around you
Ever since I found you

But the music's fooling me

I wanna hold you, I just wanna touch you
I wanna feel you, my arms around you
Ever since I found you

But the music's fooling me
