[YK]

girl why did you do do this to me  
why did you do do this to me

why was it me that you did this to  
and everything you said girl wasn't true  
i wish that i could go back in time and  
reverse the past things fix all my losses  
cause i just want to make it right with you  
and baby i dont want to fight with you  
because i know you are who i need  
so baby please don't move on with out me  
and i can't take it cause it's breaking me apart  
im trying to reach out but girl your so far  
but why can't you realize  
why can't you realize ay !

[bridge]

now when i close my eyes i see you  
now when i close my eyes i see you  
now when i close my eyes i see you  
you you oh oh oh

[chorus]

now i dont want to feel no pain inside  
no i dont want to feel no pain inside  
so baby can we please just let it slide  
can we let it slide  
baby can we let it slide

i dont want to feel no pain inside  
no i dont want to feel no pain inside  
so baby can we please just let it slide  
just let it slide  
baby can we let it slide

[Ashes Q]

i swear to god im so lost out of direction  
you in my mind baby got me feelin like inception  
cause your intentions were my main attention  
in my sane perception didnt see vain deception

i need to make correction lifes past nice ass girl  
you were my main confliction  
now im feelin you gave me wisdom ached my system  
gone now these memories i mainly miss them  
all these pain filled visions  
cold sweat no sleep how my days been feelin'  
i swear you can't refix them mend you ditched them  
love is war girl you got me playin a victim cause

[bridge]

[Ashes Q]

hear me out you the one i've been missin  
you outta my mind like bow wow you made me out of  
my system  
now im thinkin about all of those times that we shared  
with you in my arms and my palms all in your hair  
and how we use to love and care and you melted my  
heart  
and how my knees grew and i couldn't even just talk  
i wish you really see what you meant to me  
all the love we had could last a century  
but eventually it was just meant to be  
cause love is like music so you were my symphony  
it always felt like that you were so into me  
now i begin to see you are who you pretend to be but

[bridge]

[chorus]
