This is what it's like when are feet touch ground  
No peace just a beast on a beat to crush pound  
Emcees on streets in fleets we just found  
Never was an A' star I was a C' plus child... but I...

Rip through you when I spit sick to you  
Got a big hit for kids to mix an stick to you  
It's incredible... how ya still try'na find me  
Don't you know I got a beast behind me?

We hard on the streets like tar on the road  
You're the bubble gum sticking to the part of my sole  
Now my bars are so dark leave ya carcass to mould  
Never was a rich kid but got a heart of gold...

An yano I can hype the show  
My flows nitro mite blow ya ice cold  
Came back laid ya flat with a Tyson blow  
I'm old school baby like biker grove

This is what you want yes!  
This is just what we know!  
We came to steal the show the realest know we bout to  
blow  
My shit is fire baby yeah my shit is FIRE FIRE!  
My shit is fire crazy yeah my shit is FIRE FIRE!

I'm too hot for hip hop it's a fact and you all know  
Yes! Joes back with a raw flow  
Lyrically intelligent an elephant or more so  
All I see is hater's onda fence with ya Morse code

Dot dot line sorry I'm losing ya  
I'm too busy getting pissed down inda boozier  
Your a fool if you aint getting down to music  
Coz I've got a little gift an I'm bound to abuse it

Now bounce better shout let it all hang out  
I can party all night an I will never pass out  
I see ya ass out baby don't flash me girl  
Coz after one more drink I will buy you the world

So... see ya later coz this birds mine an  
Were raising the temp like mercury rising  
That's why on stage you know I don't tire  
Coz everybody knows that I am fire

This is what you want yes!  
This is just what we know!  
We came to steal the show the realest know we about  
to blow  
My shit is fire baby yeah my shit is FIRE FIRE!  
My shit is fire crazy yeah my shit is FIRE FIRE!

Oh did ya miss me you thought I was leaving?  
Nah I'm still breathing this fire to da ceiling  
Revealing EMP's to fix static  
I'm a mic addict and my hand writes the magic

Coz I'm s s m m o k e  
I K.O and K B ya flows wit great steam  
You can go an hate me if you don't rate me  
Then I'm coming wit something to make you run an  
break free

Hate me? I don't give a shit, not even a little bit  
Try to unfollow but I'll swallow you like skittles  
It's riddles from the start as I dribble with the bars  
Then I'll finish with the sickest lyrics sending to you to  
mars

You know my flows raw  
Equipped with another little bit to throw more  
So called rappers better know the score  
Coz I'm banging on a banger by Hudson Mohawke!
