The day was the day that you showed me
You're stuck in your ways you ain't changing
So the... you should've been kissing and loving me
baby
I didn't make this far apart
I show you every single card
For every reason you took me out on me
Oh oh

Pre chorus:

I'm with this game shit
Made a decision boy you gotta live with
So now why you're playing these games, games
I'm independent now I ain't gotta deal with
Wanna feel alive you're not satisfied
But f*ck it at least I tried
To satisfy you

Chorus:

Baby I hold down my hand but I keep reach you
Don't wanna open my eyes what's the point if I can't see
you
You got me fading away
You got me fading away
Look what you made

Mistakes on mistakes yeah you're all back
But try to cover it up and see you that
Right through you, you made a glass
Give you my love and give it away
It was good and the best what you're doing today

See that you dirty the mess that you made
We up in your face and I'm a grenade
Bang bang said I'm a f*cking grenade

Pre chorus:

I'm with this game shit
Made a decision boy you gotta live with
So now why you're playing these games, games
I'm independent now I ain't gotta deal with

Wanna feel alive you're not satisfied
But f*ck it at least I tried
To satisfy you

Chorus:

Baby I hold down my hand but I keep reach you
Don't wanna open my eyes what's the point if I can't see
you
You got me fading away
You got me fading away
Look what you made

Uh big proper from my helicopter need the...
Elevator in my crib meet it to the...
For such a sew only truth see...
But I'm too cut up in this money I forgot about you
You hate me now what I need
A nigga gave you everything in concrete
You say you faded I could give a f*ck
Nigga what?

[Chorus:]
