(Intro)

Ey where it is
One time warrup
Ey where it is
One time warrup
Ey where it is
Two times warrup
Two times two times warrup
Ey where it is
One time warrup
Let me know
Let me know
Let me know
Let me know

(Verse)

Let's get down tonight
I think I might hit a whole pound tonight
So shorty hit me with the spot
And if I sound alright
Do you know I'm the house
Let the nigger run his mouth
It's going down on sight
I'm always down to fight
And if a nigga in the while
No bluffing no touch
When you living in the wild
I'll be sending in the crowd
Ripping on some law
'Til I seen the sucker lick a dick
Licking on my style
Wow Mr.Bender material linin
Whole night kept her in Peru few vision
All I got to say is the word
And imperials get over to my pops
I know liquors known for serial killing
But back to the women
They tryin' to catch me slipping
So I got a pack of max to stop phanario venoms
Fermenting in my system
If it ain't my mom so my sis then

I caught them in the system

(Chorus)

So tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot
So tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot
Tell me where is that
And I'm in that spot
Let me know
Let me know
Let me know
Let me know

(Verse)

Yo let me tell ya what I'm living like
Same shit just a different night
Superbad chicks and they all up in my kryptonite
About to get down, I'm tryin' to get up in the tight
So roll the window right and I could show you what the
bitch is like
They just want to come and have fun
Told her slid the hun she could come
But don't touch my funds
I might get crazy I might bust a gun
So just gimme some or I might bust the sun
Might bust and run, they said
Laugh will come knocking at my door
Well I guess lust must've run
To dutch touch the lungs
And their brazon had them begging for the dawn
'Til I crack a don then I passed it off
I said you gotta be the swank if it ain't too rain
'Cause some poor hoes like how I dream is puto
Hold up, let me pull off, 'til I hop in
And pull it back and y'all headed out park
Like all pool holes

(Chorus)

So tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot

So tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot
Tell me where is that
And I'm in that spot
Let me know
Let me know
Let me know
Let me know

(Verse)

She's so enticing the rogatory thoughts
When I'm 'citing slangs to get away
And I heard you overflow and I can taste the waters
Like seaman and I heard you like seamen, semen
But let me slide through I know you feelin' it kid
'Cause his nonchalant lies he's letting me in
'Cause on contrast I could see us love birds
Is in plain sight and am I right
'Cause I heard you like the international loving
On a higher scale when I mean scale I do it well
Let me go deeper feel like I'm doing it well
Word on the sheet you acting like a bassican
I'll be your daddy, you can hop up in my caddy
And I heard you got the fatty
Ye serves you right, just remember it's amazing
How I come up in the track
So duck and weave and please believe
My side effect is shaking knees
Damn here I go again with the suggestive things

(Chorus)

So tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot
So tell me where is that
And I'm in that spot
I say so tell me where is that
And I'm in that spot
Tell me where is that
And I'm in that spot
