There's a pain where nobody see's it
It's designed to let us hide
From the shadows where we keep it
From a distance it looks fine
There's aggression in your pushing
Violence in your eyes
A force that echos louder stronger

Let it go
When you have nothing left to hang onto
Let it go
When your falling to your knees without it
I don't want to talk about it
I don't want to think about it
Let it go
Let it go

Is there a chance that we could start over
Right where we went wrong
Where the signs are labeled clearer
And the turns aren't quite as long
There is a reflection at the surface
But an image not so clear
When the vision comes in crystal lucid

Let it go
When you have nothing left to hang onto
Let it go
When you are falling to your knees without it
I don't want to talk about it
I don't want to think about it
Let it go let it go

When lighting strikes
Were left outside
Shifting our sight towards sounds in the sky
If it all ends now
Would it alter anything

Let it go
When you have nothing left to hang onto

Let it go
When you are falling to your knees without it
I don't want to talk about it
I don't want to think about it
Let it go
