That's deep within your soul

Can you feel the power  
That's deep within your soul?  
There's no need to cower  
You're stronger than you'll ever know

The power within  
You knew it was there but you couldn't see  
It's deep inside  
Hidden behind the pain and screams you feel at night  
[2x]

Can you feel the power  
That's deep within your soul?  
There's no need to cower  
You're stronger than you'll ever know

The power within  
You knew it was there but you couldn't see  
It's deep inside  
Hidden behind the pain and screams you feel at night

Take my hand  
Let me help you see  
That it is within your sight

The power within  
You knew it was there but you couldn't see  
It's deep inside  
Hidden behind the pain and screams you feel at night
